## Health and Safety Policy January 2017

## **Model Framework for a School Health & Safety Policy**

---

### **Introduction**

Each school is required to have a Health and Safety Policy in place. It is recommended that the school's Health and Safety Policy should be developed by the Governing Body in conjunction with the head teacher and members of the school leadership team.

The organisation and arrangements which support the H&S Policy (day to day management of Health & Safety) are the responsibility of the Headteacher and the Senior Leadership Team (supported by the Governing Body).

### **What should you do with this Model Health and Safety Policy?**

The Model Policy is designed as a model where schools may complete the relevant blank sections and adapt for their own use.

The policy has three parts;

**Part 1** - The Health and Safety Policy Statement

**Part 2** - Health & Safety Responsibilities for School staff

**Part 3** - School Management Arrangements

## **Part 1: Policy Statement**

The Health and Safety at Work Act 1974 (HSW Act 1974) places duties on employers to safeguard, so far as is reasonably practicable, the health, safety and welfare of their employees and persons not employed but who may be affected by work activities, such as pupils and visitors.

The aim of the school policy and statement of intent is to ensure that all reasonably practicable steps are taken to secure the health, safety and welfare of all persons using these premises and in particular:

- to provide adequate control of the health and safety risks arising out of our activities;
- to consult with our employees on matters affecting their health and safety;
- to provide and maintain safe plant and equipment;
- to ensure safe handling and use of substances;
- to provide information, instruction and supervision for employees;
- to ensure all employees are competent to do their tasks, and to give them adequate training;
- to prevent accidents and cases of work-related ill health;
- to maintain safe and healthy working conditions;
- to review and revise this policy as necessary at regular intervals.

The Governing Body will review this policy statement if there is any significant change or at least annually and update, modify or amend it as it considers necessary.

## **Part 2: Health & Safety Responsibilities**

**The Governing Body** has strategic responsibility for health and safety within all areas of the school's undertakings and ensuring that health and safety performance is monitored regularly. In order to comply with regulatory controls, the governing body is responsible for ensuring that advice from competent advisers is available on health and safety matters.

**The Head Teacher** has responsibility for the day-to-day operation of health, safety and welfare policies and practices, as delegated by the governing body, within all areas of the school's undertakings. In addition the Head Teacher will ensure that health and safety policy and procedures are part of the day-to-day running of the school. In order to comply with regulatory controls, the Head Teacher is responsible for ensuring that advice from competent advisers is sought on health and safety matters.

**Department Heads** are responsible for ensuring that safe working conditions are maintained for all pupils, employees, visitors, members of the public and, where applicable, contractors. In order to comply with regulatory controls within their departments, department heads are also responsible for ensuring that advice from competent advisers is sought on health and safety matters.

**Employees** are responsible for their own health and safety, that of their colleagues and members of the public who may be affected by their work activities.

Further specific health and safety responsibilities are detailed below;
